

Vanilla Emacs Config

Neovim-equivalent configuration for Emacs 29+

Features

- Evil mode: Full Vim keybinding compatibility
- Eglot: Built-in LSP client for 10 languages
- Corfu + Vertico: Fast completion and minibuffer UI
- Magit: The best Git interface
- Catppuccin Mocha: Same theme as Neovim
- Apheleia: Async format on save
- Dape: Debug Adapter Protocol support
- Treemacs: File explorer sidebar
